3. TRANSPORT MINISTER TABLES CONSULTANT'S REPORT OF INTERNATIONAL SHIPPING POLICIES FOR CANADA.	<p><u>News Release</u> (Jan. 30/75) - Transport Minister Jean Marchand tabled in the House of Commons a consultant's report giving an independent overview of economic and commercial factors to be considered in the redefinition of Canadian international shipping policies. The report was prepared for the Canadian Marine Transportation Administration of the Ministry of Transport by H.J. Darling who, in 1970, prepared a study on the coasting trade of Canada. The report is based on extensive consultations with industry, labour and port interests, but the conclusions are the author's own. The report indicates several possible ocean shipping options which Canada should explore. At the same time it recommends both careful analysis and development of options and the more positive definition of a focal point in Government for dealing with shipping matters.</p> <p>(News Release available from the Dept. of Transport, Place de Ville, Tower C, Ottawa K1A 0N5, tel. 996-5861).</p>	TRANSPORT
4. AIR CUSHION VEHICLE DAMAGED IN JOINT FEDERAL-PROVINCIAL QUEBEC NORTH SHORE SUPPLY TRIALS BACK IN OPERATION.	<p><u>News Release</u> (Jan. 29/75) - An air cushion vehicle damaged in joint federal-provincial supply trials along the north shore of the St. Lawrence River is now back in operation, Quebec Transport Minister Raymond Mailloux and Federal Transport Minister Jean Marchand announced. The "Voyageur" type ACV was damaged when it hit a rocky island in the Gulf of St. Lawrence on December 9, about two months after starting six-month trials. The project in which the Federal Government will contribute up to \$450,000 and the Quebec Government \$300,000, will be lengthened by a month to make up for lost time. The original program has not been altered. The ACV is designed to deliver cargo from one port to another and also to operate shuttle services from cargo ships in open water to ice-bound ports which otherwise would have their supply link cut by the ice.</p> <p>(News Release available from the Dept. of Transport, Place de Ville, Tower C, Ottawa K1A 0N5, tel. 996-5861).</p>	TRANSPORT

5. MOTOR VEHICLE RECALL FIGURES RELEASED FOR LAST QUARTER OF 1974.	<p><u>News Release</u> (Jan. 29/75) - Transport Minister Jean Marchand announced that 59,609 vehicles were recalled for safety-related defects in Canada during the last quarter of 1974. This brought to 407,289 the total number of vehicles recalled during the year, a drop of more than 175,000 vehicles from the 1973 figure. Details of all recall campaigns may be obtained from the Ministry's Road and Motor Vehicle Traffic Safety Branch, Transport Canada Building, Place de Ville, Ottawa K1A 0N5.</p> <p>(News Release available from the Dept. of Transport, Place de Ville, Tower C, Ottawa K1A 0N5, tel. 996-5861).</p>	TRANSPORT
6. LATIN AMERICA TO JOIN WORLDWIDE SYSTEM FOR AGRICULTURAL INFORMATION.	<p><u>News Release</u> (Jan. 29/75) - The Food and Agriculture Organization is establishing a worldwide system, known as <b>AGRIS</b>, to make available information on agricultural science and technology. It went into operation on January 1, 1975. Participation by Latin American countries, as both users and suppliers of information, is being organized on a regional basis through the Centro Interamericano de Documentacion e Informacion Agricola of the Instituto Interamericano de Ciencias Agricolas (IICA/CIDIA), of Turrialba, Costa Rica. To help IICA/CIDIA set up the organization needed for its participation in AGRIS, the International Development Research Centre is contributing \$250,000 over a three-year period. The funds will be used to obtain materials and equipment and to pay salaries for the staff required in order to get the program under way. A background note, with further explanation of the project, is attached to the release. 16. STUDENT EMPLOYMENT  
PLANS HEALTH AND  
WELFARE PROGRAMS.

## Description

News Release (Jan. 21/75) - Some 390 students will be employed this year by the Dept. of National Health and Welfare under two special 1975 summer student programs. In making this announcement Health and Welfare Minister Marc Lalonde said that the Non-Medical Use of Drugs Directorate, Health Protection Branch, would continue its summer program involving scholarships for Research on Drug Abuse (RODA) and grants in support of community agencies. Funds in the amount of \$400,000 have been allocated to each of these two programs. The RODA program will provide 189 scholarships to university and college students for 1) conducting their own research in this field during the summer and 2) acquainting themselves with problems related to non-medical use of drugs, particularly the research aspects involved. Information on RODA can be obtained from Canadian university and college student placements offices or by writing to:

The Director,  
Non-Medical Use of Drugs Directorate,  
9th Floor - Journal Building,  
365 Laurier Avenue West,  
Ottawa, Ontario K1A 1B6.

The community agencies program will make contributions to these agencies for the hiring of 200 students to distribute or gather information on the non-medical use of drugs and provide temporary staff for such units. The program will also provide a variety of community-based services designed to meet specific problems related to alcohol and drug abuse. Further information about this program can be obtained at Manpower Placement Offices or from:

Information Directorate,  
Health and Welfare Canada,  
Brooke Claxton Building,  
Ottawa, Ontario K1A 0K9.

The deadline for applications for these two programs is March 15, 1975.

18. WEST COAST TANKER TRAFFIC MEETING, WASHINGTON, D.C.	<p><u>News Release</u> (Jan. 20/75) - United States and Canadian officials met in Washington, D.C., on January 17 to discuss mutual problems related to the expected increase in oil transport and refining on the the Pacific Coast. Central to these discussions was the problem of how to ensure that marine transit and refining of oil in the Puget Sound/Straits of Juan de Fuca area can be accomplished in the most environmentally responsible fashion. The two sides expressed their satisfaction at the progress being made in bilateral efforts to ensure protection of the environment in this area. United States and Canadian officials reviewed the status of plans for joint vessel traffic management systems in the Puget Sound/Juan de Fuca area. It was announced that a voluntary traffic separation plan will go into effect March 1. The system was developed and implemented jointly by the United States and Canada. The officials also discussed proposed offshore routes to be used by tankers from Alaska to West Coast ports. (News Release available from the Dept. of External Affairs, Lester B. 19. GROUND BEEF SURVEY:  
SECOND PRELIMINARY  
RESULTS.

News Release (Jan. 17/75) - On December 17, 1974, Health and Welfare Minister Marc Lalonde released preliminary results of a nationwide survey of ground beef. Since that date, 2 additional samples have been found to contain Salmonella organisms, bringing the nationwide total to 20 positive samples out of 1219 from 244 stores in all 10 provinces. The nationwide survey is continuing. Stores from which Salmonella-contaminated samples are found will be revisited and re-sampled, after the issuance of warning letters.

20. NUTRITION CANADA  
PROVINCIAL, INDIAN AND  
ESKIMO REPORTS RELEASED.

News Release (Jan. 17/75) - National Health and Welfare Minister Marc Lalonde released reports describing the nutritional status of the population in each province and of Indians and Eskimos. These reports represent the second stage in the interpretation of data collected in the Nutrition Canada National Survey. The reports contain detailed information concerning the dietary intakes of vitamins, minerals and other nutrients and the results of clinical examinations and bio-chemical tests on blood and urine. Additional programs flowing from the results of Nutrition Canada are underway in the Department. An expert committee on diet and cardiovascular disease is expected to report its findings by this summer. These will provide the basis for a nutrition education program relating diet to heart disease, scheduled to begin later this year. A revision of Canada's Food Guide, a widely used basic aid to nutrition education, has been discussed with provincial nutritionists, and should be available for distribution by autumn. The Canadian Dietary Standard, which sets out the needs for various nutrients by Canadians of all ages, has been revised by an expert advisory committee. Its report - necessary in order to ensure a firm scientific basis for food fortification programs - is expected by late spring. The Nutrition Canada Dental Report and the Report on Food Consumption Patterns are now being prepared.

8. CANADA - MANITOBA NORTHERN AGREEMENT EXTENDED.	<p><u>News Release</u> (Feb. 11/75) - An extension to the one-year interim agreement between Manitoba and the federal government was signed by federal Regional Economic Expansion Minister Don Jamieson and provincial Northern Affairs Minister Ron McBryde. The original document, signed for 1974-75, gave the Ministers the option to extend the agreement for one year. Both Ministers expressed satisfaction with the progress made under the first interim agreement and by this amendment have committed their governments to spending up to \$24,677,850 in northern Manitoba in the 1975-76 fiscal year. The federal government will continue to pay 60% of the costs, with the province paying the remaining 40%. The major responsibility for carrying out projects will rest with provincial government departments working in cooperation with DREE and the Ministry of Transport and where appropriate with other federal departments.</p> <p>(News Release available from the Dept. of Regional Economic Expansion, Sir Guy Carleton Bldg., 161 Laurier Ave. W., Ottawa K1A 0M4, tel. 996-0268).</p>	REGIONAL ECONOMIC EXPANSION

<p>9. CANADA AND MANITOBA SIGN PLANNING PACT - SOCIO-ECONOMIC STUDIES ARE PART OF \$2.6 MILLION PROJECT.</p>	<p><u>News Release</u> (Feb. 11/75) - A three-year agreement between Manitoba and the federal government that will provide for studies for the identification and analysis of economic and socio-economic development opportunities in the province has been signed by federal Regional Economic Expansion Minister Don Jamieson and Manitoba Mines, Resources and Environmental Management Minister Sidney Green. Mr. Jamieson pointed out that similar agreements were being offered to the other Western provinces. The agreement calls for the expenditure of \$2.6 million over the three years - \$600,000 in 1974-75 fiscal year, and \$1 million in each of 1975-76 and 1976-77. The province and the federal government will share costs on a 50-50 basis. General analysis and studies of Manitoba's economic and socio-economic situation will be undertaken, along with some specific studies of sectors in which Manitoba has a significant advantage. Among the latter areas are the agricultural supply sector, agricultural products processing, and transportation; and consultations will be held with all segments of these sectors. The agreement was worked out under terms of the General Development Agreement signed by the federal and provincial governments in June of last year. Under the terms of this general agreement further agreements may be signed to provide the instruments for development of economic and socio-economic opportunities identified by the two governments. necessary financing was announced by the responsible federal ministers, the Hon. Don Jamieson of DREE and the Hon. Donald Macdonald of Energy, Mines and Resources, and by Premier Alex B. Campbell of P.E.I. Premier Campbell indicated that the underwater cable will run from Sea Cow Head on the Island to Murray Corner in New Brunswick, a crossing chosen after careful consideration of technical, economic and environmental factors. Total cost of the project is estimated at \$36 million. The new cable is expected to be in operation at the end of 1976, or shortly thereafter.

11. GULL ISLAND HYDRO DEVELOPMENT.

Speech (Feb. 10/75) - Hon. Donald S. Macdonald, Minister of Energy, Mines and Resources and the Hon. Don Jamieson, Minister of Regional Economic Expansion, announced that the federal government had agreed to provide loans to the Newfoundland and Labrador Power Corporation, at Crown Corporation rates, of up to \$343 million for the Gull Island hydro-electric development in Labrador. The loans will represent 50% of the estimated cost of high voltage direct-current transmission facilities between the Gull Island site on the Churchill River in Labrador and load centres in Newfoundland and will include a tunnel cable crossing under the Strait of Belle Isle. Also included is an alternating current transmission tie to the Churchill Falls power project, thereby connecting the Newfoundland power system to that of Québec. The proposed Gull Island installation will have an installed capacity of 1800 megawatts and an annual energy output of 11.65 billion kilowatt hours per year. The transmission system to Newfoundland will be nearly 640 miles long to a terminal station near St. John's. Present plans call for an 800 KV high voltage direct current system capable of delivering 1600 megawatts to the Island of Newfoundland. Upon completion of the Gull transmission link and of the cable interconnection to P.E.I. for which federal financial support was announced, all provinces of Canada will have electric power systems which are interconnected with a neighbouring province. 12. BAIL REFORM SURVEY  
RESULTS RELEASED.

News Release (Feb. 10/75) - Otto Lang, Minister of Justice, released the results of a survey carried out to gauge the operations of the Bail Reform Act. The object of the Act, which has been in effect since 1972, is to reduce as much as possible - consistent with the public safety and the efficient administration of justice - any interference with a person's freedom prior to his trial. The survey - the first of its kind - was carried out by Statistics Canada for the period covering January 1 to Aug. 31, 1973. Of the 12,698 persons included in the survey sample, about 91% were released either by the police or by a justice or judge at some point prior to the disposition of their cases in the courts. Of this number, about 6% failed to appear in court at some time. A summary of the survey and tables is attached to the release. For further information contact: Verna Larmour, Press Officer, tel. 992-4621. (News Release available from the Dept. of Justice, Justice Bldg., Ottawa K1A 0H8, tel. 992-4621).

15. GRANT FOR VANCOUVER  
ART GALLERY BALLET.

News Release (Feb. 6/75) - Secretary of State J. Hugh Faulkner announced a grant of \$25,000 to the Special Events Department of the Vancouver Gallery to sponsor the creation of a work in recognition of International Women's Year 1975. The grant is being provided under the International Women's Year Cultural Program of the Secretary of State's Department. The chosen work is a ballet based on the life and art of Emily Carr, renowned Canadian artist and native of British Columbia, many of whose finest works are part of the Vancouver Art Gallery's permanent collection. The Ballet will feature original choreography by Anna Wyman, founder and artistic director of the Anna Wyman Dance Theatre, and an original musical score and production of a tape by Ann Mortifee, composer, musician and singer. Both are widely recognized as fine Canadian artists in their fields. Ten performances of the ballet will be presented in the Concert Gallery of the Vancouver Arts Gallery in the last two weeks of July. The event will gain further circulation throughout Canada and elsewhere as part of the repertoire of the Anna Wyman Company. The Canadian Broadcasting Corporation and the National Film Board have also expressed interest in the project which, according to Gallery officials, is well suited to film and television production. The Gallery also plans to mount a special exhibition of Emily Carr's work from its own resources during the period in which the ballet will be presented. 16. NATIVE ALCOHOL ABUSE PROGRAM ANNOUNCED.	<p><u>News Release</u> (Feb. 5/75) - The federal government is increasing its efforts to deal with the problems of alcohol abuse among native people. A new program, announced by Health and Welfare Minister Marc Lalonde and Indian Affairs Minister Judd Buchanan, will be a joint effort by the two departments to assist the Indian and Inuit people in fighting alcohol abuse and its harmful effects on health and on family and community life. Federal funds for the program in 1975-76 and the two following fiscal years will be in excess of \$3,000,000 yearly, compared to an amount of about \$1,000,000 provided for native alcohol abuse activities in 1974-75. Under the program announced, native people will be invited to formulate projects, which they would mainly implement themselves, in the areas of prevention, treatment, rehabilitation and counselling. A National Advisory Board in Ottawa will provide guidance and direction to the program. Membership will comprise senior members of the two departments and representatives of national Indian and Inuit associations. Regional Advisory Boards will be set up on the same basis in each province and territory, with invitations also extended to provincial and territorial governments to participate. 17. DEPARTMENT OF NATIONAL DEFENCE.	<p><u>News Release</u> (Feb. 4/75) - Ten years of Canadian military air support to the United Nations Military Observer Group in India-Pakistan ends March 31. A Canadian Armed Forces Twin Otter aircraft from 424 Squadron, Canadian Forces Base Trenton, Ont., is scheduled to be replaced at that time by a larger aircraft from another country to be named by the UN. UNMOGIP was established in 1949 by the United Nations to observe the ceasefire between India and Pakistan in the state of Jammu and Kashmir, India. During the winter months the plane operated from Rawalpindi, Pakistan, and in the summer from Srinagar, India. The Twin Otter, expected back in Canada by mid-April, will be used for search and rescue duties, out of Edmonton. 20. HEALTH ANNOUNCEMENT ON PANASONIC TV RECEIVERS.	<p><u>News Release</u> (Jan. 30/75) - Health and Welfare Minister Marc Lalonde advised Canadians of a potential health hazard associated with the use of six models of Panasonic colour television receivers. Recent investigations by the Bureau of Radiological Health of the U.S. Food and Drug Administration have shown that some models of Panasonic colour television receivers may emit excessive levels of x-rays through the front of the picture tube and screen when subject to laboratory induced failure of a critical component. The Health Protection Branch has examined and evaluated data available from the U.S. laboratories and considers that a potential health hazard could occur with the use of the following Panasonic models sold in Canada: CT-201C, CT-324C, CT-398CA, CT-701C, CT-702C, and CT-924C. In the U.S. tests on models with the same numbers except for omission of the suffix C, some, but not all, sets have shown acceptable picture after component failure. 21. MEDICAL PROFESSIONS ADVISED ON TWO ANTIBIOTIC DRUGS.	<p><u>News Release</u> (Jan. 30/75) - National Health and Welfare Minister Marc Lalonde announced that following discussions between officials of the Health Protection Branch and representatives of the Upjohn Company of Canada Ltd., the company has agreed to issue a letter to all Canadian physicians and dentists on two of its drug products, Dalacin-C (clindamycin) and Lincocin (lincomycin), both available in Canada in capsules, sterile solutions and pediatric formulation. Concern has been raised recently about a possible association with the use of these drugs and serious intestinal disorders (pseudomembranous colitis and other forms of colitis). The letter to be issued by the company has been developed in collaboration with the Health Protection Branch and provides Canadian physicians and dentists with recommendations designed to minimize any possible risks. Patients receiving these medications who experience severe and persistent diarrhea should report it to their physician.</p> <p>(News Release available from the Dept. of National Health and Welfare, Brooke Claxton Bldg., Ottawa K1A OK9, tel. 996-4950).</p>	NATIONAL HEALTH AND WELFARE

6. PRESENTATION OF  
COLLECTION OF GOVERNORS  
GENERAL'S MEDALS TO  
RIDEAU HALL.

News Release (Feb. 21/75) - A complete collection of medals of Governors General was presented to The Right Honourable Jules Léger, Governor General of Canada, to become the property of Government House. The presentation was made Monday, February 24th, at 12:00 noon, at Government House. The collection, the result of 15 years' work, is the gift of Mr. Freeman Clowery, Fellow of the Canadian Numismatic Research Society. These medals are in fact personal awards of the Governor General. They are 50 mm (2 inches) in diameter and are struck in bronze, silver and gold (silver gilt). The distribution is arrived at in conjunction with the Department of Education of each province. Although the conditions of the award are left to the individual educational institution, usually the medals are presented to the leaders in the graduating classes. In the first year 18 medals were awarded. This quantity has gradually increased and today more than 300 medals are awarded annually.

(News Release available from Government House, Ottawa K1A 0A1, tel. 993-9530).

## 8. JOB PLACEMENT DRIVE.

News Release (Feb. 20/75) - An extension of a special job finding and placement drive for Unemployment Insurance claimants, employable welfare recipients, and selected Canada Manpower clients in need, becomes effective April 1, 1975. In making the announcement, Manpower and Immigration Minister Robert Andras said the drive will be operational in 34 cities involving 84 Canada Manpower Centres and 56 U.I.C. offices. It is hoped to extend the special program to all CMCs (more than 400) commencing April 1, 1976. The special program began in early 1974 on an experimental basis involving 44 CMCs and 29 U.I.C. offices in seven metropolitan centres: Halifax, Montreal, Toronto, Hamilton, Winnipeg, Edmonton and Vancouver. The Minister explained that new techniques used by Canada Manpower Centres contributed to the success of the special program. One of these, the Creative Job Search Technique (CJST), is designed to aid CMC clients by a unique self-help method. In two sessions of 1½ hours each, small groups of job seekers are familiarized with the functioning of the labour market and given training in how to appraise their own capabilities and sell them to employers. Group counselling techniques are also being developed to increase the clients' self-confidence and induce a positive attitude towards seeking employment. In addition CMC Counsellors have been trained in special marketing techniques to assist them in meeting the needs of employers for workers. (News Release available from the Dept. of Manpower and Immigration, E.A. Bourque Memorial Bldg., 305 Rideau St., Ottawa K1A 0J9, tel. 996-3740).

News Release (Feb. 20/75) - Summer and fall re-assignments of 11 senior armed forces officers in Canada and overseas have been announced by Defence Minister James Richardson. They are the first of a total of 30 who make up the list of major moves planned for 1975. Details of the other moves are expected to be announced shortly. The major change will see the commander of Canadian Forces in Europe, Maj.-Gen. James W. Quinn of Saskatoon, return to Ottawa to become the department's assistant deputy minister for personnel. He will be promoted to the rank of lieutenant-general to succeed Lt.-Gen. William A. Milroy, of Edmonton and Calgary, who is retiring. Named to take command of Canadian NATO forces in Europe is Maj.-Gen. Duncan A. McAlpine, Montreal and Ottawa. Gen. McAlpine commanded the Canadian military contingent in Vietnam after the signing of the 1973 Paris peace accords. Since July, 1973, he has been serving in Ottawa as chief of personnel development. Promotions to two-leaf rank involve Commodore Melvin T. Gardner, of Alexander, Man., and Brig.-Gen. Ramsey Withers, Toronto. Cmdre Gardner goes to a new assignment at NATO headquarters in Brussels in the rank of rear-admiral, and Brig.-Gen. Withers becomes associate assistant deputy minister for policy in Ottawa, in the rank of major-general.

6. SEISMIC MAP TO HELP ETHIOPIANS IN BUILDING SCHOOLS, HOSPITALS AND BRIDGES.	<p><u>News Release</u> (Feb. 26/75) - A grant of \$25,700 to assist in a study of the seismicity of Ethiopia and in the preparation of a set of seismic maps was announced by Dr. W. David Hopper, President of the International Development Research Centre. The project covers part of a request made to the Geophysical Observatory of Addis Ababa, by the Ethiopian Ministry of Public Works, which needs these maps and data for the drafting of a national building code. The set of seismic maps, together with a technical report, will be prepared following the analysis of all seismic tremors that have been registered since the late 19th century. This project requires computerized analysis and, since the necessary facilities are not yet all available in Ethiopia, research institutions and advisors in Scotland and Canada will help in this phase of the project. A background note, giving further details of the project, is attached to the release. 7. WITHDRAWAL OF FOREIGN BORROWING GUIDELINES.	<p><u>News Release</u> (Feb. 27/75) - Finance Minister John Turner announced the withdrawal of the foreign borrowing guidelines introduced by the government in 1970. Mr. Turner said the government no longer wishes Canadian borrowers to feel constrained by the request made by his predecessor and since repeated on several occasions to explore fully the availability of funds in the Canadian capital market before floating issues outside of Canada. This specific request to Canadian borrowers is being withdrawn at this time because the current account of Canada's balance of payments is not now in a surplus position as it was when the request was made. Mr. Turner noted that the House of Commons last week approved an amendment to Clause 118 of Bill C-49. The effect of that amendment was to extend the exemption from withholding tax for interest on government bonds for a further three-year period - that is, government securities issued before 1979. 8. TAX TREATY NEGOTIATIONS.	<p><u>News Release</u> (Feb. 19/75) - Finance Minister John N. Turner announced that meetings will take place in March, 1975 to commence the revision of the income tax treaty between Canada and Norway. The purpose of this release is to ensure that persons whose interests are affected have an opportunity to inform the government of any particular problems of double taxation which might be resolved in Canada's tax treaties. The government is particularly interested in obtaining information concerning difficulties encountered by Canadians under the tax systems of the other countries which should be taken into account in preparing for negotiations. Persons wishing to offer comments concerning the negotiations should send their views in writing to the Department of Finance, Tax Policy Branch, Place Bell Canada, Ottawa K1A 0G5.</p> <p>(News Release available from the Dept. of Finance, Place Bell Canada, Ottawa K1A 0G5, tel. 992-1573).</p>	FINANCE

This new Agreement increases and expands the number of routes granted to the two designated airlines of both countries. New traffic points will be served, such as Toronto in Canada and Geneva in Switzerland. The Swiss designated airline, Swissair, will be allowed, in addition to points already served under the present Agreement, to have access to Toronto and to exercise intransit rights to Boston, New York, Guatemala, Panama, Quito, Guayquil and Lima. It will also be allowed, with intransit and stopover rights, to serve Havana, Caracas and Bogota. All these points will have to be served from Montreal only. The Canadian designated airline, Air Canada, will be allowed to serve Geneva (from April 1977), in addition to Zurich, plus 14 points beyond Switzerland to be named by Canada with 5th freedom rights, i.e., rights to take on passengers, cargo and mail at the Swiss points. These points include 4 points in Europe, 5 points in Asia including a point or points in India, and a point in Kenya plus 4 other points in Africa. 15. GRANT TO MCGILL  
UNIVERSITY.

News Release (Feb. 19/75) - A grant of \$48,000 has been made to McGill University in Montreal as additional support for the Office of Industrial Research, the Hon. Alastair Gillespie, Minister of ITC announced. The grant is payable over one year and extends the total period of grant support to four years. An earlier grant of \$156,000, payable over three years, was made in 1971. The McGill Office of Industrial Research is one of 10 industrial research institutes established in Canadian universities with financial support from the Department. These institutes, through which the expertise and facilities of the universities are organized for the conduct of contract research for industry, are supported for a limited period of time in the expectation that they will eventually become self-supporting. The McGill office is expected to be able to continue without further support from the Department when the present grant expires...the first Industrial Research Institute to become financially independent within a period of four years. Other Industrial Research Institutes in Quebec receiving financial support from the Department are Ecole Polytechnique and the University of Quebec in Montreal. PLAN.

News Release (Feb. 27/75) - Parliament will be asked to approve an increase to \$1,800 from \$1,400 in the annual loan limit under the Canada Student Loans Plan, Finance Minister John N. Turner announced. The \$400 increase would be effective July 1, 1975. The maximum total borrowing by any one student under the plan remains at \$9,800. Mr. Turner said the boost in the annual maximum is proposed in recognition of higher living costs and educational costs facing students. The last increase in the annual limit was made July 1, 1972.

To qualify for assistance, students must be engaged in full-time study at specified post-secondary institutions, and must demonstrate a need for financial aid. Loans are approved by provincial authorities and are made to the students by chartered banks and other designated lenders such as credit unions. The federal government pays the interest on these loans to the lending institutions while the borrower is a full-time student and for six months thereafter. The student then becomes responsible for repayment of the loan and the ensuing interest charges and has a maximum period of 9½ years in which to complete repayment. To cover the anticipated increase in demand for loans as a result of the new annual limit, the total amount of loans that the federal government is prepared to guarantee will be increased for 1975/76 from an estimated \$145 million to \$175 million.

5. CARIBBEAN AND MEXICAN SEASONAL WORKERS PROGRAMS.	<p><u>News Release</u> (Mar. 5/75) - Seasonal workers from the Caribbean islands and Mexico will be admitted to Canada to assist the farmers and food processors in the growing, harvesting and canning of the 1975 fruit and vegetable crops, Manpower and Immigration Minister Robert Andras announced. The Caribbean seasonal program has been in effect since 1966 to overcome shortages of Canadian workers during peak demand periods, and is conducted in co-operation with the governments of Barbados, Jamaica and Trinidad and Tobago. Following discussions with the Government of Mexico, the Mexican program was initiated in 1974. These programs are intended to supplement the available supply of Canadian workers during peak harvest periods, and not to replace Canadian workers. Caribbean and Mexican workers recruited through the programs will receive the provincial hourly or piece-work rate or the prevailing rate whichever is the greater. Transportation costs are shared between the employer and the worker with a minimum cost to the worker of \$16 and a maximum of \$70. Employers may recover \$2.40 per day from a worker's wages for cost of meals provided to a worker. The Caribbean and Mexican programs operate throughout the full 1975 calendar year; however, employer-worker contracts cannot be less than six weeks or extend beyond a period longer than eight consecutive months. To ensure the Canadian supplies of labour are fully explored or to bring in Caribbean or Mexican workers in the absence of a Canadian supply, employers should place their order for workers with Canada Manpower Centres at least two months in advance of the employment date. 9. CANADA-QUEBEC AGREEMENT LAUNCHES OIL SANDS RESEARCH.	<p><u>News Release</u> (Feb. 27/75) - Agreement has been reached by Ottawa and Alberta on the establishment of a multi-million dollar Alberta Oil Sands Environmental Research Program. The primary purpose of the program is to obtain data that can be used to devise measures for the protection of the environment during the recovery, transport and processing of oil sands products. The total cost of the program is estimated at \$40,000,000, to be expended over a period of 10 years. The agreement signed by the Ministers is for a period of 5 years, renewable for a further period of up to 5 years. Canada and Alberta will each spend approximately \$2,000,000 annually on the program. Initial emphasis will be on determining present renewable resource and environmental conditions in the Athabasca Oil Sands. This has not been done in an intensive manner to date. Information obtained through the program will be published and made available to government, industry and the public to aid in planning development and environmental protection.</p> <p>(News Release available from the Dept. of the Environment, Fontaine Bldg., Hull, Quebec K1A 0H3, tel. 997-2159).</p>	ENVIRONMENT

11. FIRST REPORT ON THE  
USE OF NON-PRESCRIPTION  
DRUGS IN CANADA.

News Release (Feb. 24/75) - The preliminary report of the first part of a comprehensive study into the use and reasons for use of non-prescription drugs was released by Health and Welfare Minister Marc Lalonde. The report describes patterns of household and individual drug usage measured during the spring of 1974 on a national and provincial basis. It also examines patterns of multiple drug usage found in Canada. The first part of phase one of the study was designed to identify the extent of use of non-prescription drugs in Canada. The preliminary report released is based on that first part of phase one. Further studies needed to complete phase one include an in-depth investigation of the reasons for use of non-prescription drugs by the public and continued study of the use of drugs by the public. These studies are now being conducted. Phase two, which is scheduled to begin shortly, is designed to expand and validate statistically the knowledge gathered in phase one with representative samples of the population. In addition, phase two will begin investigation of the methods of promotion associated with these products and examine their impact on use and reasons for use of these products by Canadians.

12. STATEMENT AT CONCLUSION  
OF CANADA-CHINA JOINT  
TRADE COMMITTEE.

News Release (Feb. 21/75) - The following statement was issued by The Hon. Alastair Gillespie, Minister of Industry, Trade and Commerce, at the conclusion of the second series of meetings of the Canada-China Joint Trade Committee: "At the invitation of the Canadian Government, the second series of meetings of the Canada-China Joint Trade Committee were held in Ottawa on February 17-20, 1975. The Joint Trade Committee was established by the Trade Agreement signed by Prime Minister Trudeau and Premier Chou-En-lai during Mr. Trudeau's visit to China in October, 1973. With respect to 1975, the two delegations reviewed the export capabilities and import requirements of the two countries. The market opportunities identified during these meetings will be pursued with the appropriate enterprises in Canada and China. The Canadian side referred to specific proposals to export complete plant and technology to China and were assured that these would receive consideration by the Chinese authorities. The two delegations also discussed the international economic situation. It was agreed that the Third Meeting of the Joint Trade Committee will be held in China and the Chinese side invited the Government of Canada to send a delegation to Peking early in 1976". ## 13. INQUIRY INTO IMPORTS.

News Release (Feb. 21/75) - An inquiry to determine whether importation into Canada of certain items of men's and boy's wear is threatening serious injury to production in Canada of similar goods will be undertaken by the Textile and Clothing Board. The inquiry is being made following a notice of complaint from the Apparel Manufacturers' Council of Canada on behalf of the Men's Fine Clothing Industry. The complaint alleges Canadian production is threatened by import of men's and boy's suits, jackets (commonly referred to as sport coats and blazers), co-ordinates and pants, including such items as slacks and jeans, (Con't.)

7. OPENING OF HIGH VICTORIAN DESIGN EXHIBITION AT THE NATIONAL GALLERY OF CANADA.	<p><u>News Release</u> (Mar. 18/75) - Dr. Roy Strong, Director of the Victoria and Albert Museum, London, England, and his wife Julia Trevelyan Oman, distinguished stage designer, will give lectures highlighting the opening of a major exhibition <u>High Victorian Design</u> at the National Gallery of Canada, Ottawa on Thursday 28 March which will remain on view until 27 April. This travelling exhibition, which has been seen in Winnipeg, Vancouver and Calgary and goes on to Quebec City, features nearly 300 objects of decorative art and covers the "High Victorian" design period in England, between 1850 and 1870. The exhibition also examines the fine arts and architecture of the middle years of Victoria's reign. To accompany the exhibition, the National Gallery of Canada has published <u>High Victorian Design</u>, a bilingual 300-page, hard-cover and fully illustrated catalogue written by Simon Jervis. This book is available at the bookstore on the main floor of the National Gallery for \$14.95. An eight-page bilingual companion to the exhibition has been written by the Gallery's Chief Curator, Dr. R.H. Hubbard. 10. TRAFFIC DATA SERVICE FOR THE GOVERNMENT TELEPHONE SYSTEM.	<p><u>News Release</u> (Mar. 12/75) - The Dept. of Communications has contracted with Bell Canada for the provision in June 1975 of a Traffic Data Service for the 35,000 line Government Telephone System in the National Capital Region. The \$1.5 million contract is for a period of five years. The Traffic Data Service uses an automatic traffic data collection system supplied to Bell by ESE Ltd. in Toronto and integrated with switching equipment in specified Bell Canada central offices. Traffic data, similar to that noted by switchboard operators, is captured on magnetic tape, and is processed to provide billing information similar to a long distance statement. Such information includes the source, destination, holding time, and time of day for calls over the Federal Government intercity networks originating in Ottawa and permits more efficient management of the telephone system. 13. OPPORTUNITIES FOR YOUTH PROGRAM.	<p><u>News Release</u> (Mar. 11/75) - Manpower and Immigration Min. Andras announced the formula for the allocation of the \$27.5 million Opportunities for Youth Program for 1975. Regional allocations are as follows: Atlantic - \$4,618,000; Quebec - \$6,998,000; Ontario - \$5,639,000; Prairies and Northwest Territories - \$2,225,000; British Columbia and the Yukon - \$2,893,000. Three-quarters of the regional allocation is based on the estimated student unemployment level for 1975, and one-quarter is calculated on the regional unemployment level estimated above the national average. In addition, an amount of \$2,322,000 remains to be distributed within the regions as needed. The remaining funds will cover operating and administrative costs. Within the regions there will be an allocation to Labour Market Management Areas, the amount determined by the youth population divided by the number of job vacancies for selected occupations in 1974. The allocations take into account funds for projects by native youth. The Management Area allocation of funds is included in the Release. 17. COPYRIGHT ACT TO BE APPLIED TO FOREIGN PUBLISHERS.	<p><u>News Release</u> (Mar. 3/75) - Secretary of State Hugh Faulkner said that the prohibitory sections of the Copyright Act will be applied to prevent the illegal importation into Canada of foreign editions of Canadian books. A review of sections 27 and 28 of the Act indicates that they could be effective to alleviate certain problems presently caused by the importation. Mr. Faulkner said those applying for action under sections 27 or 28 of the Copyright Act would have to provide satisfactory evidence which would establish their right to such action by the Government. Following the verification of this information and the establishment of the case for prohibition, the effected publication would be placed on the prohibitory schedule of the customs tariff. The government will be writing to Canadian publishers to explain how the provisions will work and to ask the publishers to enlist the aid of their authors in establishing the legal title to the copyrights. Individual importations by private individuals will not be involved in this action, nor will copies for the use of public libraries or institutions of learning. 27. CONSUMER PACKAGING AND LABELLING ACT.	<p><u>News Release</u> (Mar. 13/75) - The Hon. André Ouellet announced a forthcoming series of amendments to regulations under the Consumer Packaging and Labelling Act. This Act was passed by Parliament in 1971 with all-party support. Following passage the Department of Consumer and Corporate Affairs undertook an extensive series of comprehensive discussions with the industries affected by the Act with a view to developing detailed regulations under which the Act would operate. The Act and regulations were proclaimed in March 1974 with regulations relating to non-food items to take effect September 1975 and those relating to food items to take effect March 1976. The current amendments will deal with certain forms of visible packaging for non-food items where the identity and number of articles in the package are clearly visible to the purchaser and therefore should not require identity and quantity labelling. Amendments will also be made to the bilingual requirements on some special items and to the requirement for declaration of net quantity in both Canadian and metric units on certain small items.</p> <p>(News Release available from the Dept. of Consumer and Corporate Affairs, Place du Portage, 1 Victoria St., Hull K1A OC9, tel. 997-2932).</p>	CONSUMER AND CORPORATE AFFAIRS

8. COLUMBIAN TEXTILE  
WORKERS.

News Release (April 4/75) - Manpower and Immigration Min. Andras said that Colombian textile workers brought to Canada to fill temporary jobs in a Louiseville, Quebec textile plant must leave the country in order to apply for permanent residence in Canada, but they can do so by using the return tickets provided them at the time they first left Columbia, and the Canadian immigration office in Bogota will deal with them promptly and provide assisted passage loans if necessary to finance their return. Twenty-five of the Columbians have been offered employment at a Smith's Falls, Ontario textile plant and would likely qualify as immigrants. The remaining 12, who have not yet found employment, will have their temporary visas extended to July 20 to give them extra time in Canada to seek employment. All of the Columbians will be required to leave Canada on or before July 20th, the date when their return tickets to Columbia cease to be valid. The workers involved in this case must leave Canada and return to their own country where, if they wish, they can apply for admission to Canada as properly visa'd immigrants. 9. AID TO REFUGEES OF  
SOUTH VIETNAM.

News Release (April 2/75) - Manpower and Immigration Min. Andras said his Department stood ready to co-operate with the United Nations High Commissioner for Refugees in any action by the international community that may be necessary to help alleviate human suffering in South Vietnam. Measures taken by the Department of Manpower and Immigration will be in addition to the \$1.75 million of aid assistance to UN relief programs announced March 27 by the Secretary of State for External Affairs. Canadian citizens or landed immigrants who wish to sponsor or nominate relatives in Cambodia or South Vietnam are urged to contact their nearest Canada Immigration Centre. Mr. Andras said that steps had already been taken to assure that no Vietnamese or Cambodians now in Canada would be required to leave for any reasons as long as the present situation continues. 12. ADULT OCCUPATIONAL  
TRAINING AGREEMENT  
SIGNED - SASKATCHEWAN.

News Release (April 2/75) - A new two-year federal-provincial Adult Occupational Training Agreement has been signed by Manpower and Immigration Min. Robert Andras and Saskatchewan Minister of Continuing Education Gordon MacMurchy. The Agreement will assist Saskatchewan in providing institutional and industrial training opportunities for the provincial labour force. Effective April 1, 1975, the agreement provides that a minimum of \$6,840,000 will be made available to Saskatchewan in the first fiscal year of the agreement for the purchase of institutional training, apprenticeship training, and in payment of administration costs incurred by industrial training. In the second fiscal year ending March 31, 1977, the minimum amount will be adjusted by the percentage increase in the National Consumer Price Index as determined by Statistics Canada. The agreement replaces existing contracts which were signed in 1967. A joint Federal-Provincial Manpower Needs Committee has been established to assess manpower needs in the province, recommend training plans and priorities, assess training results, and recommend improvements. Several other Canadian provinces have entered into similar Adult Occupational Training Agreements with the federal government. (News Release available from the Dept. of Manpower and Immigration, E.A. 13. "CONSUMER PRODUCT  
MARKETING AND THE LAW".

News Release (April 1, 1975) - Consumer and Corporate Affairs Min. Ouellet confirmed that his Department will host a national industry seminar on "Consumer Product Marketing and the Law" in Ottawa, June 12th and 13th. The purpose of this seminar is to expose the business community to the activities of the Dept. of Consumer and Corporate Affairs in terms of present law and regulations and to familiarize them with the general policy directives of the department. At the same time, it will provide a unique opportunity for the business community to make known its views and attitudes. Advertising, packaging and labelling, food standards, product safety, metrication, trade practices and the activities of the Bureau of Intellectual Property are among the items to be included in the agenda. 14. CANADA AND SASKATCHEWAN SIGN MEMORANDUM OF INTENTION FOR UNIQUE GRASSLANDS PARK.	<p><u>News Release</u> (Mar. 27/75) - A major step towards the creation of a 360-square mile grasslands national park in southwestern Saskatchewan was taken when the Hon. Judd Buchanan, Minister responsible for Parks Canada, and the Hon. J.R. Kowalchuk, Saskatchewan Minister of Tourism and Renewable Resources, signed a memorandum of intention. The ministers stated that the area is suitable for a national park and a national park would be established within two years if the proposal meets with the acceptance of the people of Saskatchewan. The proposed park would be in two sections - one in the Val Marie area and the other near Killdeer - to be joined by a scenic parkway, constructed by the federal government. The memorandum calls for the establishment of a federal-provincial committee to undertake public hearings to determine whether or not there is public support for a grasslands national park. Following the public hearings, public participation would continue in the formulation of a master plan for the development of the park to be drawn up within five years. Parks Canada is willing to commit \$20 million for a first stage of park development, which would include visitor facilities such as the parkway, internal park roads, trails, lookouts, picnic and camping sites and centres for the interpretation of this unique landscape, and wildlife conservation projects. AN \$8.3 MILLION FEDERAL-PROVINCIAL AGREEMENT APPROVED TO DEVELOP WILD FUR INDUSTRY IN MANITOBA.</p>	<p><u>News Release</u> (Mar. 27/75) - An \$8.3 million, five-year agreement providing for development of the wild fur industry in Manitoba has been approved for signature by the Hon. Harvey Bostrom, Manitoba Minister responsible for Lands, Forests and Wildlife Resources and the Hon. Judd Buchanan, Minister of Indian and Northern Affairs it was announced. The agreement includes features to help offset industry problems including high trapper costs, low returns to producers, difficulty of access to resources, inadequate sources of credit, and ineffective organization of trapping activities in the community. The programs included in the agreement will be aimed primarily at the registered trapline and special fur conservation areas of northern and central Manitoba, but some of the components will apply throughout the province. Major items in the agreement are loans to improve trapper capability by providing operating and capital funds, loans as cash advances to help in fur marketing, grants for trapline development, and research and development of production. Other segments of the agreement cover fur depot construction, fur marketing development, trapper education, grants to participating agencies and program evaluation.</p> <p>(News Release available from the Dept. of Indian and Northern Affairs, Centennial Tower, 400 Laurier Ave., West, Ottawa, K1A 0H4, tel. 996-7241).</p>	<p>INDIAN AND NORTHERN AFFAIRS</p>

News Release (Mar. 25/75) - The Minister of Veterans Affairs, the Hon. Daniel MacDonald, and the Minister of State for Urban Affairs, the Hon. Barney Danson, announced new measures to assist veterans to purchase or rent homes. For veterans, DVA will give special assistance in addition to that available from CMHC under the Assisted Home Ownership Program and the Non-Profit rental housing program. Veterans who qualify to buy a house under AHOP may receive a grant of up to \$600 a year, in addition to CMHC's regular loans and interest-reducing grants. Veterans who would otherwise qualify for AHOP but are excluded either because they have no children, or because they want to buy an existing house rather than a new one, can get the DVA grant of up to \$600

26. BASIC RETAIL BEEF CUT NOMENCLATURE.	<p><u>News Release</u> (Mar. 25/75) - Agriculture Canada Min. Whelan, and Consumer and Corporate Affairs Min. Ouellet recommended, to the meat industry, the adoption of a simple, standard nomenclature for beef cuts consisting of eight primary and 16 secondary cuts. The suggested nomenclature, to be implemented on a voluntary basis, will enable consumers to have a better understanding of the nature of meat for sale. It is intended that the new descriptions should be used on all retail beef cuts. The appropriate suggested terms may appear in conjunction with any other useful information, or descriptive and/or coined names for beef cuts. The nomenclature does not cover such products as sausages, meat loaves, meat patties, minced beef or meat by-products such as heart and liver. A revised chart, for both consumers and the meat industry will be sold by Information Canada after May 15th. The cost will be 50-cents for the small chart and \$1.50 for the large chart. ON THE CANADIAN MARKET.

News Release (Mar. 20/75) - A steady improvement in the quality of drug products available to Canadians is indicated in the third report issued by the Drug Quality Assessment Program's publication, released by Health and Welfare Min. Lalonde. With QUAD Review 3, the Health Protection Branch provides detailed analytical results on 57 drug entities, involving 774 lots of products under 554 different brand names, manufactured by 121 pharmaceutical firms. This third edition of QUAD also represents a decision to make the QUAD data available twice yearly as compared with the two previous annual editions. QUAD Review 4, which is scheduled to be released this summer, will provide additional analytical data, results of the evaluation of manufacturer's capability to manufacture, control and distribute drug products, further bio-availability data, price comparison information and a summary. The information provided by QUAD will enable physicians and pharmacists to prescribe and dispense quality drugs on the basis of scientific and technical facts. All available data from the QUAD program are provided in detail to the Provincial Departments of Health on a confidential basis and are used extensively in the respective drug programs.

FEDERAL GOVERNMENT ACTIVITIES	<p><u>News Release</u> (Apr. 11/75) - Agriculture Minister Whelan announced further details on the federal government's plan to aid eastern Canada's potato farmers. The program, announced March 27, will pay eastern potato farmers \$1.67 per hundredweight for Canada No. 1 potatoes sold on the fresh market after April 1, 1975. In addition, producers will receive the market price - whatever it may be. On March 31, 1975, the market price to producers was \$1.10 per hundredweight. All producers in the eastern provinces - Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland - will benefit under the special stabilization program. New Brunswick and P.E.I. producers will also be eligible for payments for livestock feed potatoes. Producers in N.B., where the only starch facilities are located, will also be eligible for starch payments. Producers selling uncontracted potatoes to processors on or after April 1, 1975, will receive, in addition to the processors' price, a federal subsidy of 77 cents per hundredweight. The total supply of potatoes in eastern Canada is larger than the total of all these markets, so the federal government will be paying to commercial producers \$1.80 per hundredweight, basis Canada No. 1 grade, for the surplus potatoes at the end of the season. The overall maximum eligibility for producers for all elements of the program will be</p> <p>(Con't.)</p>	AGRICULTURE

An initial allocation of two carloads (1,100 hundredweight) for table potatoes has therefore been made to all producers. This initial allocation will be adjusted as producers fill it. Growers must first make known their selling intentions to local provincial or federal agricultural officials, from whom application forms will soon be available. Proof of certification and sale will also be required by Agriculture Canada before payments will be made under the special program. 6. INCREASED CANADA MANPOWER MOBILITY GRANTS AND ALLOWANCES.	<p><u>News Release</u> (Apr. 11/75) - Increased Canada Manpower Mobility grants and allowances are available to unemployed, about to be unemployed or underemployed workers willing to move within the country, Manpower and Immigration Min. Andras announced. A major policy revision raises the salary limit for persons wishing to obtain a relocation grant. To have qualified previously, workers could earn no more than \$10,000 to \$12,000, taking into consideration the number of dependants. Under the new scale, workers may earn from \$11,000 to \$15,500 based on the number of dependants and the duration of unemployment. Workers in transit - on exploratory, temporary employment and special travel grants - may now receive a \$20 daily living allowance compared to the previous \$13 for a period of up to three days for exploratory and temporary employment grants and a maximum of five days for special travel grants. Special travel grants, formerly available to only a small number of people needing to travel for diagnostic and special testing services, are now available to any worker isolated from Manpower offices and services. Designed to improve service to Canadians in remote areas, special travel grants will allow these people to visit their nearest Canada Manpower Centre for up to five days. Revisions to policies governing temporary employment grants will provide workers with return transportation in addition to the previous provision for transportation costs (Con't.)</p>	MANPOWER AND IMMIGRATION

8. STUDY UNDERWAY FOR WORLD-WIDE INFORMATION SYSTEM ON SOCIAL AND ECONOMIC DEVELOPMENT.	<p><u>News Release</u> (Apr. 10/75) - Two grants to study the feasibility of DEVSIS, a proposed international information system in the field of economic and social development, were announced by Dr. W. David Hopper, President of the IDRC. The study, co-sponsored by IDRC, the International Labour Office (ILO), the Organization for Economic Cooperation and Development (OECD), the United Nations Educational, Scientific and Cultural Organization (Unesco) and the United Nations Development Program (UNDP), aims to define a system that will bring together information on the social and economic aspects of development and make it available to policy-makers and planners, particularly those in developing countries. A meeting, held in Ottawa in June 1974, recommended the convening of a Steering Committee to prepare detailed proposals of the system. The Committee met for the first time in October 1974, and a grant of \$61,700 to Unesco will cover the cost of future meetings. The Steering Committee is made up of representatives of the co-sponsors and individuals from eight different geographic regions of the world. The second grant, \$105,000, is to ILO for the establishment of a Study Team and the provision of necessary services for its work. 11. \$1,827 RESEARCH GRANT AWARDED FOR HOUSING LEGISLATION RESEARCH PROJECT.	<p><u>News Release</u> (Apr. 10/75) - Justice Minister Otto Lang announced the awarding of a \$1,827 grant to Professor D. Paul Emond of the Faculty of Law, Dalhousie University, Halifax. The award was made to pay the costs of a summer research assistant to help with the preparation of a low-income cooperative housing information kit. The kit would form part of a housing legislation research project being carried out by Prof. Emond to explore existing housing legislation as well as new forms of land and house ownership and financing. The final report will include an information kit on low income housing law for distribution to interested groups, proposals for extending the scope of existing provisions in the National Housing Act for low income housing, and an outline of the peculiar housing problems of the Maritimes and proposals to deal specifically with these problems.</p> <p>(News Release available from the Dept. of Justice, West Memorial Bldg., 344 Wellington St., Ottawa K1A 0H8, tel. 992-4621).</p>	JUSTICE

13. AGRICULTURE MINISTERS MEET.	<p><u>News Release</u> (Apr. 9/75) - Federal and provincial agriculture ministers reached broad agreement on measures to give the Canadian Egg Marketing Agency greater control over production and marketing of eggs. Agriculture Minister Eugene Whelan said he expected an agreement to be signed within two weeks after the ministers have discussed it with their governments. The agreement would provide for an expansion of CEMA's inspection and monitoring system to exercise continual surveillance of the national hen flock to ensure that producers remain within their quotas.</p> <p>(Con't.)</p>	AGRICULTURE

13. CON'T.	<p>Greater accuracy in reporting all egg production and movement will be ensured by the licensing of all producers, dealers, graders and vendors. The administration of the national agency will be restructured with the appointment of a chairman and one other member of the executive by the federal minister of agriculture in consultation with the provincial ministers. A major factor in the agreement is the determination of the provinces to bring their production within the quota limits set by CEMA and to levy severe penalties on the provincial egg marketing agencies for surplus production. CEMA will control the sale of all within-quota eggs that are surplus to table requirements. A uniform national price will be established with set prices at basic points throughout Canada. Prices in other markets will only be allowed to vary by the cost of transportation and marketing.</p> <p>(News Release available from the Dept. of Agriculture, Sir John Carling Bldg., 930 Carling Ave., Ottawa K1A 0C5, tel. 994-9551).</p>

17. AN EDUCATIONAL TECHNOLOGY PROGRAM FOR NEWFOUNDLAND.	<p><u>News Release</u> (Apr. 7/75) - A joint federal-provincial program is now underway to study the current use and future potential of educational computing in the Province of Newfoundland. Under the program, surveys are being undertaken of the current use of computers for education in Newfoundland and of the resources available to the Province for educational computing. In addition, the program is considering the current and future needs of Newfoundland for educational computing, appropriate activities and expected benefits. Several alternative systems which could meet these needs are being studied, and the program is determining the further resources, including common-user communications facilities, required for these educational computing alternatives. Signatories to the program agreement were the Hon. Gérard Pelletier, federal Minister of Communications, and the Hon. Gerald Ottenheimer, Minister of Education for Newfoundland. The program is being carried out in connection with the Newfoundland Task Force on Computer and Computer Communications. The cost of resources for the program is estimated at \$33,300 of which the Federal Government is contributing \$24,000 and the Province is contributing \$9,300.</p> <p>(News Release available from the Dept. of Communications, Berger Bldg., 100 Metcalfe St., Ottawa K1A 0C8, tel. 995-8185).</p>	COMMUNICATIONS
18. NEW EMISSION GUIDELINES FOR ASPHALT PAVING PLANTS.	<p><u>News Release</u> (Apr. 7/75) - Guidelines limiting the emission of particulate matter into the air from asphalt paving plants were announced by Environment Minister Jeanne Sauvé. These Guidelines limit the emission of particulate matter into the air to 0.230 grams per normal cubic meter (or 0.10 grains per cubic foot of exhaust gases) which is equivalent to 8.3 lbs. per hour from a 100 ton-per-hour plant. There are approximately 350 asphalt plants in Canada with an annual production exceeding 14.5 million tons of paving asphalt valued at \$116 million. Emissions of particulate matter are currently estimated at 60,000 tons annually. Equipment is available to control emissions from asphalt plants with an efficiency greater than 98%. If the guidelines were implemented on a national basis in 1975, emissions from asphalt paving plants would be reduced to a</p>	ENVIRONMENT

23. ENVIRONMENT CANADA EXTENDS THE POLLUTION CONTROL INCENTIVE PROGRAM.	<p><u>News Release</u> (Apr. 1/75) - Environment Minister Jeanne Sauvé said that the recently approved Bill C-49 provides for the extension of the Accelerated Capital Cost Allowance program. The ACCA program is playing a vital part in pollution clean-up throughout Canada. The decision to extend the ACCA program for two years allows sufficient time for possible applicants to plan and implement major pollution abatement projects. This accelerated write-off is a tax incentive introduced to encourage the acquisition of pollution abatement property. It allows taxpayers who have acquired assets to control air or water pollution, and who meet the requirements of Classes 24 or 27 under the Income Tax Act, a 100 per cent write-off over two years.
